Filament PHP,

Minor:

Data Structure, DBMS, Software
Engineering, Internet of Things,
Artificial Intelligence, ML

Tools:

Docker, Flask, Figma, Laravel,
Postman, AI-tools, Django
Rest API, GitHub, PyCharm,

PROFESSIONAL EXPERIENCE

Hyscaler

Junior Technical Programmer

October 21st 2024 – Present

Internal Project

Dynamic Form Package – Laravel with Filament

- Developed a reusable dynamic form package for Laravel using the Filament admin panel.
- Enabled rendering dynamic forms and managing dynamic database structures within any Filament resource.
- Integrated form validation, field-level customization, and conditional rendering support.
- Improved development speed for form-heavy modules across multiple internal projects.

Client Project 1: Exam Portal (React.js + Laravel)

- Built a secure and interactive online examination system using React.js for the frontend and Laravel for the backend.
- Integrated time-based restrictions, question randomization, and copy-paste prevention to ensure a cheat-proof environment.
- Implemented exam scheduling, auto-submission, and real-time result evaluation modules.

Client Project 2: Live Broadcast App (Next.js + Node.js)

- Developed a live streaming platform using Next.js and Node.js with deep integration of Google APIs and YouTube Live.
- Handled latency and bitrate configurations to ensure smooth, real-time broadcasting.
- Enabled admin-controlled stream creation, scheduling, and viewer analytics.

Client Project 3: Healthcare App (Next.js + Laravel)

- Built a web and mobile healthcare application connecting patients and doctors.
- Fetched sensitive medical data from authorized healthcare APIs with end-to-end encryption.
- Implemented appointment scheduling, real-time doctor availability, and secure patient data handling.
- Adhered to healthcare compliance and data privacy standards (like HIPAA/GDPR equivalents).

Bourntec Solutions

Junior Developer (Intern)

April 15th 2024 - August 5th 2024

- **Internal Project 1: Flask-based Web Application**
 - Developed a full-stack application using Flask for the backend and SQL Connector for database interactions.
 - Solely responsible for designing, developing, and deploying both the frontend and backend components.
- **Internal Project 2: React.js and Django Application**
 - Built a dynamic web application using React.js for the frontend and Django for the backend.
 - Developed and integrated RESTful APIs to connect the frontend with the backend services.
 - Managed state and data flow in the frontend using React's state management techniques.
 - Gained hands-on experience in handling Django views, serializers, and database models.
 - Ensured cross-browser compatibility and optimized the application for performance.

PROJECTS

- **Blood Bank Management System**

Designed and implemented a secure and user-friendly web interface for a Blood Bank Management System using PHP, MySQL, and HTML/CSS. Collaborated in a team to deploy the system successfully, demonstrating proficiency in PHP and web development.

- **Real Estate Ecommerce Website**

Developed a React-based real estate eCommerce website. Integrated user authentication and secure payment processing. Designed a responsive user interface. Maintained and updated the website for optimal performance and collaborated with a team for project enhancement.

- **Sudoku Game**

Created a Java AWT-based Sudoku game, featuring user-friendly GUI, puzzle generation, solving algorithms, and input validation. Demonstrated strong problem-solving skills.

INTERNSHIP

- **Web Developer – Flask, React**

Bourntec Solutions,
Bhubaneswar (2024)

- **Sales and Marketing**

HighRadius,
Bhubaneswar (2024)

- **Web Developer - Mean and Mern Stack**

Silicon Institute of Technology (SIT),
Bhubaneswar (2023)

CERTIFICATIONS

- **NPTEL Internet of Things (IoT) Course**
NPTEL
(2023)
- **Web Developer Advanced Certified Course in Software Application (ACCSA)**
Central Tool and Training Center (CTTC),
Bhubaneswar
(2021)

ACADEMIC BACKGROUND

2024 - 2022	MASTER DEGREE (MCA) Silicon Institute of Technology Silicon University
2021 – 2018	BACHELOR DEGREE (PHYSICS) Dharamasala Mahavidyalaya Utkal University
2018 – 2016	12th (SCIENCE) Dharamasala Mahavidyalaya CHSE Board
2016	MATRICULATION Dharamasala Baneepetha HSCE Board

CONTENT WRITER

Niyaz Unveiled: A Tapestry of Love and Poetic Intrigue

<https://www.skniyaznoorpoetryandlovestories.com/>

As the founder and curator of an online platform dedicated to short stories and poems, I have spearheaded content creation, curation, and overall editorial direction. I strategically utilized social media and SEO techniques to grow and engage a passionate community of readers and emerging writers. Collaborating with writers, I brought diverse voices to the forefront, establishing the platform as a vibrant space for creative expression. This experience has honed my skills in project management, community building, and digital marketing, demonstrating my ability to manage digital content and cultivate an online literary community.

ABOUT ME

Date of Birth – 23rd September 2000
Gender – Male
Birth Place – Jajpur, Odisha, India
